Projects

VG Stock

This project is inspired by Pexels like websites. Users can download videos and images from this website and users can also upload videos and images on this platform. There is a search bar and filter buttons so that users can find the desired content. Pexels API is used to call these images and videos data. There is also a sign up and login page. This is responsive also.

- HTML, SASS, JavaScript and PHP

Listen Pure Ecommerce

Listen Pure is an ecommerce website, where users will find branded earphones, headphones, neckbands, etc. This website has a search bar, add to cart and it is responsive too. Products in the shopping cart which are selected by the users are stored in the local storage.

- HTML, SASS, and JavaScript
